The origin of bananas

First of all we can say that the banana is one of the oldest fruits and is already in that age bought bananas in bulk for resale. Healthy vegetables and fruits. Back to the story – appeared sweet fruit from southern India, because the first mention of bananas in the records of the 6th century D. E. Some scientists imply that in ancient times, people is the fruit of the consumed in food the roots are full of hydrocarbons. For example, in the 19th century, labored scientist in Ethiopia in the report wrote local people scrubbed banana tree for obtaining roots, use for receiving flour to bake bread. And the stems plants applied as a salad. But when people tasted so sweet and delicious fruit, the banana began its victorious a journey the world. Where to buy fruits and vegetables. Banana fruit ripen normally 90 days after the ovaries, with each stem is 200-300 fruits.

Valuable properties of bananas

For example, to put on weight in town Clarksville, must buy bananas, in order to each day to eat at least 2-3 pieces. Yes bananas are very nutritious and are composed of vitamins B, R,C and 16% glucose. Besides bananas are rich in potassium, if for example, you get a little the dose of potassium, it leads for irritability, decrease in appetite and poor sleep. Optovaya baza vegetables and fruits. So if you pursue tense state, occasionally, once tightly eat, eat a number bananas. After a number bananas petalnode replace a real lunch. Not just in western countries office employees appreciate bananas the ideal dinner, and in some hot countries carriers bananas for lunch, because you can rapidly refresh and start working.

Varieties of bananas

One of the best well-known sorts of bananas in Clarksville is a Baby. They are called of the dwarf or finger because of the length of the fruit 7.5 cm. Also this culture characterizes sweet taste and yellow color. Finger bananas slightly more expensive large counterparts. Vegetables and fruits. The next grade charts the popularity Cavendish. This fruit we meet every day, its length is 25cm. Maturity of the fruit comes when the skin yellow, formed brown spots. Curious fact, bananas Cavendish for the year in the world consumed more than a different kind. Also bananas categorized on "starch" and "sweet". As You know, sweet bananas consume and prepare them different desserts. But starch bananas cooked with fish, boiled, steamed, include in meat and porridge. If you have not tried these bananas, they have similarities with potatoes by fruit density. Most often in the city of Clarksville meet the conventional yellow and dwarf bananas, the last small size a little of their sweeter counterparts. Fruit trees sale. There are red bananas, but their not export for a short storage, they simply will not survive the carriage. This delicious fruit in fried and boiled.
